Commissioner:

Applicant respectfully petitions the U.S. Patent Office to correct the filing receipt for the above-identified application by removing “(*) Data inconsistent with PTO records.”

The subject application claims priority from provisional application number 60/212,905, filed June 19, 2000. However, the U.S. Patent Office assigned the provisional application a filing date of June 20, 2000, as indicated on the enclosed copy of the filing receipt originally issued in connection with the provisional application (Exhibit A). A Petition to the U.S. Patent Office to correct the filing date was filed August 30, 2001 (Exhibit B). The U.S. Patent Office accordingly issued a Decision Granting Petition on December 17, 2001 (Exhibit C). The U.S. Patent Office records should now reflect the correct priority data for the subject application.

Application No. 09/670,887

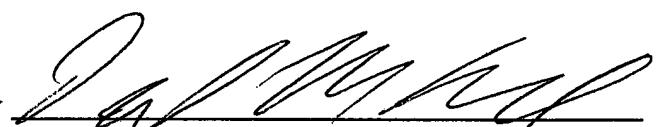

A Corrected Filing Receipt deleting “(*) Data inconsistent with PTO records” is respectfully requested.

The Commissioner is hereby authorized to charge Deposit Account No. 03-1728 for any fees which may be required in this connection. **A copy of this letter is enclosed.**

Respectfully submitted,

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 36 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15 (b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 600 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

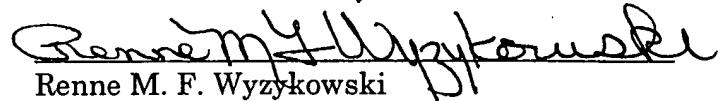

Any corrections that may need to be done to your Filing Receipt should be directed to:

BACKGROUND OF THE INVENTION

The present invention relates generally to computer based address systems, and more specifically to a server based address system with automatic update capabilities.

10 Individuals, particularly those engaged in business, often have to keep track of phone numbers, addresses, etc. of numerous people. These people may be persons with whom an individual deals with on an often basis, persons the individual contacts occasionally, and persons the individual just recently met. For 15 all of these people the individual is always faced with the challenge of maintaining up-to-date accurate information regarding how to contact and communicate with these other people. These other people, who are contacts of the individual, may change telephone numbers, addresses, or even positions or 20 companies. In all of these instances the individual may wish to remain current with the person's information. In addition, the person who has changed particulars is often very desirous that other individuals be provided their updated information.

25 In the past, individuals often kept track of other individuals by way of maintaining, for example, business cards in a Roladex. Whenever a person in the Roladex moved it is up to the person who moved to provide the new contact information to all of their contacts. It was also required of each of the 30 individual contacts to update their own address book. With the advent of computers for maintaining address information, this has often meant that as an individual moved they were required to inform all of their contacts of their new particulars, and each of their contacts was thereafter left to their own devices to update their computerized address books.

In re Application of :
Adi Harari :
Application No. 60/212,905 : DECISION GRANTING PETITION
Filed: 19 June, 2000 :
Attorney Docket No. 39656/DMC/I275 :

This is a decision on the petition filed on 5 October, 2001, which is treated as a petition under 37 CFR 1.10(c) requesting that the above-identified application be accorded a filing date of 19 June, 2000, rather than the presently accorded filing date of 20 June, 2000.

Petitioner alleges that the application was deposited in Express Mail service on 19 June, 2000. Petitioners have provided a copy of an Express Mail customer receipt showing Label No. EL483652272US (the same Express Mail number found on the itemized transmittal sheet accompanying the original application papers located in the official file).

In view of the above, the petition is granted. No petition fee is due and none has been paid.

It is noted that this provisional application became abandoned twelve months after the filing date of 19 June, 2000.¹

The application is being forwarded to the Office of Initial Patent Examination for further processing **with a filing date of 19 June, 2000.**

¹111 U.S.C. § 111(b)(5).

Telephone inquiries specific to this matter should be directed to the undersigned at (703) 308-6918.
